PRESBYTERIAN RECORDS INDEX

January 2008

Introduction

The following is the current index to the Presbyterian Church records that have been microfilmed by PRONI. Please note, not all Presbyterian Church records have been microfilmed. Additional Presbyterian Church records may be available in other archives either as xerox copies or originals.

Individual entries/pages from registers of baptisms, marriages and burials of any date can be copied. Individual entries/pages from other types of records (for example, Session minutes etc.) which are more than fifty years old can also be copied.

Permission must be sought from the individual congregation (by writing to the Minister) for copies of:

- entire reels of Presbyterian Church records;
- individual entries/pages from records (other than registers of baptisms, marriages and burials) which are less than fifty years old.

If you are unable to visit PRONI to search the archives yourself, you are encouraged to use PRONI's search service.

**This index is a guide only.
You will have to consult the appropriate catalogues for full details.**
