Introduction

The files are being released under the 30/20 Year Rule.

The annual release of selected official files continues against a background of greater public access through the Freedom of Information Act balanced against the need to protect personal information. The FOI Act (2000) created a new access to information regime and all records were reviewed in accordance with both that Act and the Data Protection Act.

Annually since 1976, official records held by PRONI which were 30 years old have been reviewed with a view to making them publicly available (“the 30 year rule”). In September 2011, the Assembly accepted a Legislative Consent Motion to reduce the time limit for release from 30 years to 20 years (“the 20 year Rule”). This is underpinned by the Freedom of Information Act 2000 and the amendments made to it by the Protection of Freedoms Act 2012.

The 20 Year Rule is being phased in over 10 years, with two years worth of records being reviewed and released each year. This year, the records of NI Departments and the NIO with terminal dates of 1989 are being brought forward for release during August 2016 and the records of 1990 will be brought forward in December 2016.

This process involves the referral of the files to the Responsible Authority for sensitivity review. This entails a page by page examination to ensure that a record contains nothing sensitive as defined by the FOI Act and DP Act.

Records Released

These files are available to the media in advance of their release to the public on the strict understanding that **there is an embargo on publication or broadcast until Thursday 25th August 2016.**

503 files being deemed as suitable for release as “fully open”. A further **151** files are open but subject to blanking out of some content. **78** files remain closed in full, the bulk of which are individual prisoner files.

The main file series being released includes Central Secretariat files.

Some of the main issues covered by the 1989 release include:

- Anglo-Irish Intergovernmental Council (A.I.I.C)
- Political Development meetings
- European Convention on Human Rights
- Economic cooperation and negotiations (involving Ireland, UK, USA and Europe)
- The MacBride Principles (on discrimination in the workplace)
- High level and operational security matters (including on the border and within the penal system)
- Child abuse (including ‘Kincora’ Inquiry , Sheridan and Hughes reports)
- Community groups and political links
- Racketeering
- Emergency / contingency / disaster planning (including ‘War Plan’)
- Post Chernobyl accident contingency planning
- The Arts (including funding for Ulster Orchestra and Ulster Museum)
- Fisheries
- The Lagan Weir project

Records may be closed either fully or in part only. Blanking out involves the removal of a limited number of papers from the file that have been deemed as exempt from the right to know under FOI. To facilitate the release of as much information as possible, redaction can be used to blank out sensitive data within individual documents that would otherwise prevent release. All information which is withheld in the manner outlined above, however, must be retained in accordance with the exemptions contained within the FOI Act. In the majority of cases, the reason for extended closure was the application of section 40 – the *personal information*

exemption – of the FOI Act. This means that personal information is exempt from the right to know if it would breach the Data Protection principles.

The catalogue of files for 1989 will be publicly available online on PRONI website from **Thursday 25th August** and files will be available to view at PRONI from **Thursday 25th August**.
