| Department of Health & Social Services | 101 |
| Department of Regional Development | 116 |
| Northern Ireland Office | 117 |
| Policy Co-ordinating Committee | 119 |

Introduction

The files are being released under the 30/20 Year Rule.

The annual release of selected official files continues against a background of greater public access through the Freedom of Information Act balanced against the need to protect personal information. The FOI Act (2000) created a new access to information regime and all records were reviewed in accordance with both that Act and the Data Protection Act.

Annually since 1976, official records held by PRONI which were 30 years old have been reviewed with a view to making them publicly available (“the 30 year rule”). In September 2011, the Assembly accepted a Legislative Consent Motion to reduce the time limit for release from 30 years to 20 years (“the 20 year Rule”). This is underpinned by the Freedom of Information Act 2000 and the amendments made to it by the Protection of Freedoms Act 2012.

The 20 Year Rule is being phased in over 10 years, with two years’ worth of records being reviewed and released each year. This year, the records of NI Departments and the NIO with terminal dates of 1991 were brought forward for release during August 2017 and the records of 1992 are being brought forward for release during December 2017.

This process involves the referral of the files to the Responsible Authority for sensitivity review. This entails a page by page examination to ensure that a record contains nothing sensitive as defined by the FOI Act and DP Act.

Records Released

There are **481** files being deemed as suitable for release as “fully open”. A further **158** files are open but subject to blanking out of some content. **43** files remain closed in full, the bulk of which are individual prisoner files.

The main file series being released includes Central Secretariat files.

Some of the main significant issues covered by the 1992 release include:

- Political developments and talks between the Northern Ireland parties and the Secretary of State
- *SECRASP* papers (Social, Economic and Community Relations Aspects of Security Policy)
- Cross border economic cooperation
- Security legislation (including ministerial consideration of Emergency Provisions and Special Category)
- US / Northern Ireland relations, specifically fair employment (the MacBride principles)
- Anglo Irish Intergovernmental Conference
- British/Irish Inter-Parliamentary Body
- Political Development Group papers
- Secretary of State’s briefings on various NI issues
- Child abuse
- Fisheries
- Historic Monuments
- Industrial development
- Economic impact of tourism
- Youth training
- Anti-Racketeering activities and paramilitary influence in the construction industry
- Rural development
- NI Film Council

Records may be closed either fully or in part only. Blanking out involves the removal of a limited number of papers from the file that have been deemed as exempt from the right to know under FOI. To facilitate the release of as much information as possible, redaction can be used to blank out sensitive data within individual documents that would otherwise prevent release. All information which is withheld in the manner outlined above, however, must be retained in accordance with the exemptions contained within the FOI Act. In the majority of cases, the reason for extended closure was the application of section 40 – the *personal information* exemption – of the FOI Act. This means that personal information is exempt from the right to know if it would breach the Data Protection principles.

The catalogue of files for 1992 are publicly available online on PRONI website and files are available to view at PRONI.

Department of Agriculture
